Lauren's Boerbert's Vote Against**

to defeat Rep. Lauren Boebert*

**GLENWOOD SPRINGS, COLORADO, July 23rd, 2021**

Colin Wilhelm strongly supports H.R.3985, the ALLIES Act.

This bill makes available an additional 8,000 visas available to qualified Afghan nationals who worked for the U.S. government or the International Security Assistance Force (ISAF) in Afghanistan. These Afghan nationals, and their families, will be directly targeted by Taliban, ISIS, and other organizations for their support and help with the ISAF.

The United States has a duty to protect those Afghan nationals, and their families. They have placed their lives and their families lives on the line to work with the ISAF. A failure to protect and support them is a failure at the highest political, moral, ethical, and policy levels.

"I am very proud of veteran and Colorado Rep. Jason Crow for leading this bill.", Wilhelm said. "I am deeply saddened but not at all shocked that Rep. Boebert, not only voted against this bill but couldn't even be bothered to show up to vote and voted no by proxy."

Rep. Boebert's NO vote, and lack of presence shows a massive disregard for the world around her, for understanding of the nature of foreign policy, a lack of understanding of the aspects and impacts of war, and a general disregard of human life.

Her NO vote, and lack of presence at the vote shows her continued failures politically, morally, and ethically.
